

Yirra Partner — Commercial up to 2,000 units

For workshops, local manufacturers, and small brands

Who this is for

You are building Replicants to sell. You're under 2,000 units a year, you want a clear price, and you want to be listed as a Yirra Systems Commercial Partner.

What you can do

- **Manufacture and sell** Replicants commercially, at your chosen tier.
- **Get listed** on yirrasystems.com as a Yirra Partner.
- **Buy** genuine batteries and key parts at partner prices.
- **Use** the “Yirra Partner” badge on your product and site.

What it costs (pick a tier)

Tier	Annual units	Setup (AUD)	Royalty per unit (AUD)	Typical example
Maker	1 – 25	\$1,100	\$20	20 units: \$1,100 + \$400 = \$1,500
Commercial	26 – 500	\$4,500	\$15	200 units: \$4,500 + \$3,000 = \$7,500
Scale	501 – 2,000	\$13,500	\$9	1,000 units: \$13,500 + \$9,000 = \$22,500

Prices are AUD, ex-GST. Setup is paid once a year. Report and royalty are due within 14 days of each quarter-end.

What you promise (five things)

- **Report** your unit count within 14 days of every quarter-end. Use the portal.
- **Pay** royalties within 14 days of submitting that report.
- **Build** with genuine batteries and flight controllers from the approved list.
- **Keep records** of what you manufactured and sold, so we can reconcile your reports.
- **Don't export** to parties blocked under Australian or applicable law.

What happens if you mess up

We talk to you first. If a report is late or a royalty is missed, you get 30 days to fix it. If you keep missing, we pause your licence, invoice the backpay, and remove you from the partner list. No surprise lawsuits.
